

## **Garden pump**

### **RURIS AquaPump 800S**

|                             |                      |
|-----------------------------|----------------------|
| Engine power                | 750W                 |
| Maximum discharge height    | 40m                  |
| Maximum absorption depth    | 9m                   |
| Flow                        | 2.9m <sup>3</sup> /h |
| Number of stages            | 1                    |
| Protection class            | IP44                 |
| Maximum working temperature | 35°C                 |
| Water use                   | Clean water          |
| Maximum particle size       | 0.05mm               |
| Number of starts/h          | 30                   |
| Discharge diameter          | 1" (2.54 cm)         |
| Pump outer diameter         | -                    |
| Pump body height            | 21.5 cm              |
| Housing material            | Cast iron            |
| Turbine material            | Bronze               |
| Diffuser material           | PPO (techno-polymer) |
| Engine cooling              | With air             |
| Cable length                | 2m                   |
| Winding                     | aluminum             |
| Control panel               | Yes                  |
| Float switch                | No                   |
| Supply voltage              | 220V/50Hz            |
| Net weight with accessories | 13.8 kg              |
| Warranty                    | 24 months            |
