Ruris 731K professional tiller is designed for working in gardens and field crops with dimensions over 5000 m, equipped with a 7,5 HP General Engine.

Advantages

Robust cast iron case for the gearbox and the transmission.

Additional toolbox.

Gearbox with easy operation - Easy Control.

Benefits

Usage on all types of soil due to the material's ruggedness of the case (ductile iron).

The toolbox allows the user to store the accessories during travel.

Ease and comfort of the use, regardless of the experience and knowledge level.

The gearbox, operated Easy Control, has a lever system which helps the user to easily shift gears without mechanically index the gearbox sprockets
