

Inverter generator **RURIS R-POWER 3000**

Engine	General Engine
Operating cycle	4 strokes
Engine power	7HP
Cylinder capacity	212 cc
Ignition system-	TCI
Starting	Manually
Combustible	Unleaded gasoline
Tank capacity	4.5L
Engine oil bath capacity	0.6L
Average fuel consumption	< 500 (grams/kW/h)
Maximum generator power	3000W
Generator nominal power	2800W
Working frequency	50Hz
Rated current	12.7 A
Number of sockets	1
Stator winding, rotor	Copper
DC output voltage	-
AC output voltage	220V
AVR	NO
Continuous Running Time	2H
Net weight with accessories	22.3 kg
